Power: X-Blast 70w is a construction projector with Osram LEDs. 70w and 6000 real lumens: a real light on your building site; aircraft grade aluminium heatsink for better heat dissipation. Diffuser: X-Blast is a floodlight type projector; it therefore serves to illuminate a surface such as a wall or a room; polycarbonate anti-glare diffuser and 120 ° high performance reflector for homogeneous and shadow-free light; light 6500K. Ideal for building and craft works, for do-it-yourself or car repairs; outdoors, it is recommended for facade work, rescue, road works, but also when camping; you can use it wherever you want intense lighting protected from water and dust. Equipped with 3m H05RN-3G 1.5mm² cable with schuko socket, X-Blast can be installed on any tripod; the adjustable support allows you to adjust the light as you need as well as to transport the projector anywhere, with a small footprint; convenient ON/OFF switch and CEE 7/7 service socket for connecting a tool or another projector in series. X-Blast is hyper-resistant and is water-jet proof according to IP65 protection class; the body is in polycarbonate with PVC reinforcements for better impact resistance (IK08), the glass is shockproof and the power cable is fixed with a special thread in the body; even in case of rain X-Blast continues to illuminate the surrounding environment without any problem.
