

# FiloSlim cable sleeve

## application

- Universally applicable socket system for the production of connecting, branching and voltage-proof end sleeves
- Applicable to complicated cable connections and different cable types, such as:
  - N (A) YY, N (A) YCWY, N (A) KBA
  - Expelled veins
  - Cables with a bend or a radius
  - Vertical cables

## properties

- For all standard compact clamping rings, connectors, single branch terminals as well as earthing and neutral connection terminals
- Clean and fast potting through patented filling system
- PUR cast resin tested to IEC 60455-3-8 categories L-OP-W and LI
- Hydrolysis resistant casting resin allows mounting on wet cables
