#### MANCHON A SERTIR 0,5-1,0mm<sup>2</sup>

|                                            | 291090                  |
|--------------------------------------------|-------------------------|
| Nominal cross section                      | 0.5 - 1 mm <sup>2</sup> |
| Model                                      | DIN-version             |
| Sleeve form                                | Short                   |
| Suitable for solid conductors              | No                      |
| Suitable for stranded conductors           | Yes                     |
| Suitable for fine strand conductors        | No                      |
| Suitable for high temperatures (to 650 °C) | No                      |
| Suitable for insulated varnish             | No                      |
| Suitable for round conductors              | Yes                     |
| Suitable for flat conductors               | No                      |
| Material                                   | Copper                  |
| Insulation                                 | None                    |
| Voltage level                              | Up to 10 kV             |
| Type of connection                         | Parallel connector      |
| Number of branches                         | 2                       |
| For pull protected connections             | No                      |
| Oil stop/centre bar                        | No                      |

|                |               |
