

## Centralini da parete serie hight

**I centralini della serie Hight sono realizzati in tecnopolimeri ad alte caratteristiche di resistenza termica e meccanica che li rendono idonei a essere installati in ambienti con condizioni particolarmente gravose.**

**Portelli in policarbonato fumé.**

**Ottima resistenza agli agenti atmosferici e chimici. Protezione contro la scossa elettrica.**

**Viti inox. Guarnizione in gomma EPDM.**

**Passacavi in PVC autoestinguento, tappi doppio isolamento e tappo coprimoduli forniti a corredo.**

**Binario DIN omega con viti e supporti ad altezza regolabile.**

**Realizzabili versioni speciali (ad esempio con fori e colori personalizzati) per applicazioni industriali.**

The Hight range distribution boards are made of technopolymers, with outstanding thermal and mechanical resistance which assures the safe use even in adverse environmental conditions.

Tinted polycarbonate doors.

High resistance to chemicals and weatherings.

Electric shock protected.

Stainless steel screws. EPDM rubber gasket.

Equipped with self-extinguishing PVC cable sleeves, double insulation caps and blank covers.

DIN omega rail supplied with screws and adjustable supports.

Industrial use special versions (with personalized holes and colours) are available.

*Dettagli*

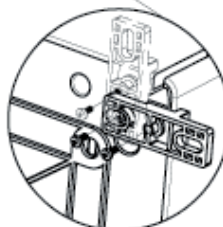

Adattatore canale  
Pipes- trunking adaptor  
Adaptateur tubes - conduits

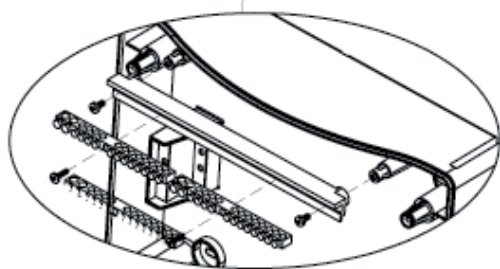

Morsettiere T/N per centralino 940.E.12  
E/N Connector for distribution board 940.E.12

Morsettiere T/N per centralino 940.ER.12  
E/N Connector for distribution board 940.ER.12

Predisposizione staffe di fissaggio a parete.  
Provision for wall mounting brackets  
*Prédisposé pour étriers de fixation en saillie*

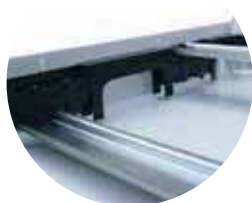

Possibilità di alloggiamento morsettiere  
T+N su entrambe le testate.

E+N terminal blocks may be fitted either in the  
upper or the lower part of the consumer unit

*Les borniers T+N peuvent être fixés soit dans la  
partie supérieure, soit dans la partie inférieure du*

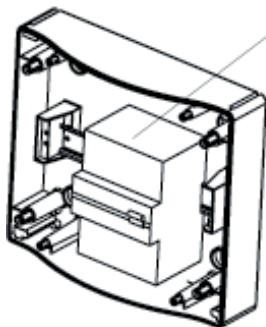

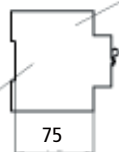

Si possono utilizzare apparecchiature fino a 125A posizionando la barra DIN nei fori inferiori

Equipment to be used up to 125A by positioning the DIN rail into the inferior holes

Appareillages aptes à l'utilisation jusqu'à 125A en positionnant la barre DIN dans les trous inférieurs

Predisposizione per il fissaggio a tre livelli di altezza del binario DIN.

DIN rail fitted for 3 level fastening

Rail DIN predisposé pour la fixation sur 3 niveaux

Accessorio - serratura metallica con chiave.

Accessory - metal key lock

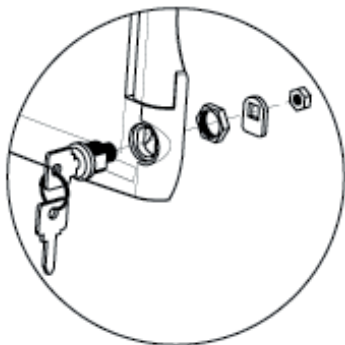

Accessoire - serrure à clé en metal.

Tappo doppio isolamento.

Double insulation cap.

Bouchon double isolation

Coprimoduli in dotazione.

Dummy DIN stick supplied.

Faux modules en dotation
