DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG

POWER: the 20W / 1600 lumen energy saving LED spotlight illuminates the construction site with a cold white light (6500K) and optimizes working conditions, even outdoors (IP65). Average lifespan of 25,000 hours, energy class A + with low consumption. practically
EVERYWHERE: the portable lamp is useful for work outside, on the construction site, in the workshop, in the garden, on the camping site or in the garage. The headlight is also waterproof and is suitable for both indoor and outdoor use. **EASY TO USE:** Adjustable metal bracket with padded handle to easily move the work lamp on the construction site. Wide base for better stability. **SIMPLE:** the construction site lamp is equipped with a 1.5 m long neoprene power cable (H05RN-F 3G1.0MM2), which can be connected to any European socket (Schuko socket).
space SAVER: the portable spotlight is small, it can be stored and transported comfortably.
