DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG

Giant: with a height of 153 cm, a base of 85 cm, the EXCALIBUR STAK LED light stands out on the construction site; it is used as the main light to illuminate a room or an outdoor area. Powerful: Equipped with high efficiency, heat dissipating 2835 SMD LEDs, the EXCALIBUR STAK light develops 9400 lumens (100W) of light over a 360 ° angle. Versatile: the handy 2500W schuko service socket allows you to connect a tool or to connect another lamp in series to form a light garland on the construction site. Resistant: IK08 (practically unbreakable), IP54 (withstands water jets), the EXCALIBUR light does not fear the construction site, the van or falls material: polycarbonate and aluminum. Equipped with 5 meter H07RN-F 3x1.5mm² cable with CEE 7/7 socket (schuko).
