DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG

Power: X-Blast 30W is a rechargeable construction projector with SMD LEDs. 30W and 2400 real lumens: a real light on your building site; aircraft grade aluminium heatsink for better heat dissipation. Diffuser: X-Blast is a floodlight type projector; it therefore serves to illuminate a surface such as a wall or a room; polycarbonate diffuser and 120 ° high performance reflector for a shadow less and homogeneous light; light 6500K. Independent. 3 hours of guaranteed light at full power; fast charging in 3.5 hours thanks to the special transformer supplied; the projector is equipped with a 7.4V 6Ah 18650 type li-ion battery with charge indicator; included: 220V adapter. X-Blast can be installed on any tripod; the adjustable support allows you to adjust the light as you need as well as to transport the projector anywhere, with a small footprint; convenient ON/OFF switch; practical 2A outgoing Powerbank to charge your phone quickly on the construction site. X-Blast is hyper-resistant and is water-jet proof according to IP65 protection class; the body is in polycarbonate with PVC reinforcements for better impact resistance (IK08), the glass is shockproof and the power cable is fixed with a special thread in the body; even in case of rain X-Blast continues to illuminate the surrounding environment without any problem.
