

## CRUISER XL: 40W (4800lm) solar street light with motion detector and remote control

PACKING	INNER	MASTER
	pcs	pcs
Colour box	N/A	4

### DATI TECNICI / SPECIFICATION / CARACTÉRISTIQUES / CHARACTERISTICAS / SPEZIFIKATIONEN

Product name:	CRUISER XL
Power supply:	SOLAR
Type of power supply:	SOLAR PANEL
Batteries included:	YES
Battery (capacity mAh):	12000
Battery technology:	LITHIUM-ION
Battery weight:	920
Charging Time (hrs):	8
Runtime (hrs):	60
Light technology:	SMD LED
Power (W):	40
Lumen:	4800
Kelvin degrees:	4000K
Beam angle:	120
Detection angle:	120
Detection distance (m):	12
Range (m):	12
Materials:	PLASTIC - PC
Insulation class:	III
Colour:	BLACK
Protection degree (IP):	IP65
Accessories included:	REMOTE CONTROL
Guarantee:	2 YEARS
Product width (mm):	710
Product depth (mm):	285
Product height (mm):	70
Net weight (kg):	5,282

**DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG**

Ultra Bright: The 40W solar street light is equipped with 90 SMD LEDs which provide super bright illumination for an outdoor area of approximately 80 sqm. Can be installed on a pole or fixed to the wall, this powerful outdoor solar lamp guarantees you 4800 lumens. 12000mAh large capacity lithium battery ensures long battery life even for days without sunshine. Intelligent charging technology: the integrated solar panel converts sunlight into electricity with high efficiency (21W monocrystalline). The latest generation charging system makes the solar panel rechargeable even on cloudy or rainy days. Lighting guaranteed 365 days a year. With motion sensor: the floor lamp charges during the day and turns on automatically at night. Operating modes : 1) Constant lighting mode: the lamp will automatically turn on at night and constantly maintain 60% brightness for 4 hours, then switch to motion sensor mode. 2) Motion sensor mode: The light will automatically turn on to 100% brightness when motion is detected within a range  $\leq 12$  meters, then dim to 30% brightness after 20 seconds without motion. Versatile outdoor lamp: the lamp was designed to be outdoors. It is therefore resistant to water (certified IP65), UV and atmospheric agents (hyper resistant polycarbonate). The floor lamp operates between -15 and +50 degrees. Resists extreme weather conditions, such as lightning, rain, snow. Perfect for garden, patio, yard, garage, rest area, parking lot, trade, etc Easy to Install: This outdoor solar light is easy to install. You don't need to run an electric cable, make trenches etc... it's totally wireless. And it's also a great saving: 0 euros on the bill! It can be mounted on a wall or on a pole (straight or curved), the recommended installation height is about 3 to 5 meters. Equipped with a practical remote control to control and program it. Recommended installation is around 3 to 5 meters. Equipped with a practical remote control to control and program it. Recommended installation is around 3 to 5 meters. Equipped with a practical remote control to control and program it.
