## DATI TECNICI / SPECIFICATION / CARACTÉRISTIQUES / CARACTERISTICAS / SPEZIFIKATIONEN

|                             |                                |
|-----------------------------|--------------------------------|
| Power supply:               | 220V AC                        |
| Batteries included:         | YES                            |
| Type of power supply:       | INTERNAL DRIVER                |
| Light technology:           | 2835 SMD LED                   |
| Power (W):                  | 180                            |
| (W) Consumption:            | 180                            |
| Lumen:                      | 21000                          |
| Kelvin degrees:             | 6500K                          |
| Colour rendering Index :    | 80                             |
| Light beam:                 | DIFFUSE                        |
| Beam angle:                 | 360                            |
| Detection distance (m):     | 20                             |
| LED Life time (hrs):        | 30000                          |
| Materials:                  | PLASTIC - PC                   |
| Dimmable:                   | YES                            |
| Extendable:                 | YES                            |
| Insulation class:           | I                              |
| Power cable length (cm):    | 500                            |
| Cable:                      | H07RN-F 3G1.5mm2               |
| Colour:                     | YELLOW                         |
| Switch:                     | YES                            |
| Protection degree (IP):     | IP54                           |
| Mechanical resistance (IK): | IK10                           |
| Functions:                  | ON / OFF                       |
| Plug:                       | Type E / F - 2 pin (EU Hybrid) |
| Socket:                     | Type E / F - 2 pin (EU Hybrid) |
| Number of sockets:          | 2                              |
| Guarantee:                  | 2 YEARS                        |

**DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG**

Giant: with a height of 156 cm and a base of 85 cm, the EXCALIBUR STAK LED lamp stands out on the construction site; it is used as a main light to illuminate a room or an outdoor space. Powerful: Equipped with high-efficiency, heat-dissipating SMD 2835 LEDs, the EXCALIBUR STAK luminaire develops 21,000 lumens (180 W) of light over a 360° angle. Versatile: equipped with two very practical Schuko service sockets (max. 3000 W). They make it possible to connect a tool or to connect another lamp in series to form a light garland on the construction site. Resistant: polycarbonate structure IK10 (virtually unbreakable), IP54 (resistant to water jets), the EXCALIBUR luminaire is not afraid of construction sites, loading into the van or falls. Material: polycarbonate and aluminium. Equipped with 5 meters of H07RN-F 3x1.5mm<sup>2</sup> cable with 2 CEE 7/7 sockets (schuko).
