## DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG

Connect devices equipped with a USB Type-C port (MacBook, Chromebook Pixel, Galaxy Note 7, etc.) with devices and accessories equipped with a standard USB Type-C 2.0 port (smartphones, wall/car chargers, multiport adapters, etc.). Ideal for charging and powering devices equipped with a USB Type-C port, but also for synchronizing data, photos and music. Reversible Design: Ability to easily insert the connector into any device with a Type-C port (regardless of direction). The Type-C connector is half as wide and a third as thick as standard USB-A connectors (and slightly wider than Lightning or Micro-USB ports). Data transfer rate up to 480 Mbps; output power up to 5V, 3A.
