Centrifugal duct fans

DESCRIPTION

- Scroll and front panel made of self-extinguishing ABS, rated V0.
- Motor housing and filter frame made of ABS plastic.
- 3 speed AC motor, shaft on ball bearings, coupled to a forward curved centrifugal impeller, PBT made.
- Nominal airflows: 100 / 60 / 35 m³/h
- G2 filter, with a clogged filter mechanic alarm fully compliant with ErP reg. N° 1253/2014/UE, in force since 1st January 2018.
- The switching on/off of the product can be realized through a

dedicated external switch or the light control. Different level of performances, or rather the transition from Min to Max speed, can be realized through an external switch. During the installation, is also possible to set the continuous running mode at minimum speed (Continuous Ventilation of the room), moving to an higher speed selection (Boost mode) through the external switch.
