CODE 45391

VORT NRG 800 EC EH

Heat recovery units equipped with static heat exchangers

Certifications

TECHNICAL AND PERFORMANCE DATA

Filter class for extract air	G4	Nominal Diameter (mm)	315
Filter class for supply air	F7	Number of Phases (Ph)	1
Frequency (Hz)	50	Power pre-heater	2,5
Max ambient temperature for continuous operation (°C)	60	Protection current	14,3
Min ambient temperature for continuous operation (°C)	-20	Voltage (V)	230
Motor Class	B	Weight (Kg)	190
Motor IP protection	44	Delivery max (m³/h)	950
Motor Power (W)	220X2	Sound power level - radiated Lw [dB(A)]	59

DIMENSIONS

Size A (mm)	2020
Size B (mm)	965
Size C (mm)	415
Size D (mm)	210
Size E (mm)	460
Size G (mm)	150
Size G1 (mm)	50
Size G2 (mm)	145
Size J (mm)	280
Size K (mm)	780
Size M (mm)	750
Size M1 (mm)	259
Size T (mm)	1/2"
Size T1 (mm)	1/2"
Vents diameter Ø A (mm)	315

Technical Data Sheet

CODE 45391

VORT NRG 800 EC EH

Heat recovery units equipped with static heat exchangers

DESCRIPTION

- Frames consisting of rounded aluminium profiles with built-in, polyamide made, spacers for class TB2 thermal break; corners made of reinforced polyamide; double skin (sandwich), 10/10 panels (inner side with galvanized steel sheet, outer side with pre-laquered metal sheet (RAL 7035) with protective film); insulation through 25 mm high density (M0) mineral wool.
- 2 EC motors, independently adjustable, external rotor type, integrating safety thermal cut-outs, with backward curved impellers directly driven by ball bearings; 2 speeds adjustable during the installation.
- Air-to-air, counter cross-flow, aluminium made heat exchanger whose high performance, certified by Eurovent, exceeds 90% according to EN 308 standard.
- Automatic pre-heater.
- Circular branch connections with lip seals to grant the system air tightness.
- 100% inner automatic by-pass.
- 2 filters, respectively G4 on extracted air (stale) and F7 on (fresh) air supply, both mounted upstream of inner components, on runners fitted with lip seals to ensure effective air tightness.
- Access to filters and inner components by security latch on removable panels.
- Brackets crimped into the structure for fixing to the ground or ceiling/false ceiling.
- Inner slanted tray to assure the proper condensate removal at product horizontally installed.
- Advanced electronic control suite, including a control box enriched by a LCD display allowing:
 - o To independently adjust the fan speeds,
 - o To modulate the opening of the by-pass,
 - o To set a weekly, holiday and public holiday timer,
 - o To control the status of both filters,
 - o To integrate the unit in a BMS (communication protocols supported are MODBUS, BACNET and WEB TCP-IP),
 - o To set the unit operation mode in case of fire, to be allowed among 5 pre-defined fan control alternatives,
 - o The machine diagnostic.
- A podlockable local circuit breaker, mounted on front panel, allows to stop the unit in case of fault.
