VORT SUPER DRY UV G

Airblade hand dryers designed for installation in commercial and public areas

DESCRIPTION

- Cabinet moulded in self-extinguishing ABS, colour silver.
- Steel wall-mounting flange.
- EC brushless motor with thermal overload protection and shaft turning in ball bearings.
- Heating element ON/OFF: when high ambient temperatures render the use of hot air unnecessary, a switch on the left hand side of the cabinet can be operated to deactivate the heating element and save energy.
- Germical capability thanks to UV lamp.
- Dryer stops immediately when hands are withdrawn.
- Protection against vandalism: the appliance shuts off automatically following 25 seconds of operation uninterrupted.
- Protection against overheating, overload and short-circuit.
- Drip collection tank
- HEPA filter.
