GORDON EVO 20/8"

Oscillating table and pedestal fans

Description

Oscillating table fan equipped with brushless DC motor.

- Grid, motor casing and support base in gray painted metal.
- Central frame, located between the front and rear grille, made of gray painted plastic material (ABS).
- Support rod in gray painted metal.
- Touch buttons with LED lights on the support rod, showing the set functions.

• Axial impeller directly coupled to a 4-speed DC (brushless) motor, designed to ensure safe and reliable operation.

- Automatic horizontal oscillation (max angle 90°).
- Possibility of manual vertical adjustment of the fan body.
- Automatic switch-off timer, settable up to a maximum of 4 hours.
- 24V power supply with Italian plug and power cable with a useful length of 180 cm.
