

MICROCOMFORT

Wall-mounted fan heater with towel heater function

Electric fan heater/towel heater for wall installation. Its small size and pleasing aesthetic make MICROCOMFORT especially suitable for installation in residential bathrooms, where effective, rapid heat integration of the primary system is guaranteed.

- Built-in towel heater.
- Automatic device for reducing heating power to 1,000 W upon installation of the towel heater rail, in compliance with current safety regulations.
- High protection rating from water, compatible with Zone 3 bathroom installation.

Note: For full compliance with European Regulation No. 1188/2015, this product must be subjected to an external control device that regulates heat emission in the room where it is installed.

Supplied with a stainless steel towel warmer rail: with the rail fitted, heat output is automatically limited to 1000 W, in compliance with current safety regulations.

TECHNICAL FEATURES

- 1 model
- Plastic resin enclosure; front covers made of self-extinguishing ABS, grey-painted; rear cover incorporating the extraction grille in self-extinguishing PP. Air outlet grille in PP on the front cover.
- Stainless steel pipe towel warmer rail positioned under the outlet grilles: when the rail is fitted, the power is automatically halved, in compliance with current safety regulations.
- Centrifugal impeller fashioned from glass-fibre reinforced nylon, to ensure sturdiness and heat resistance, directly coupled to the motor with shaft turning on self-lubricating bushings for regular, quiet operation.
- Needle heating elements, protected by a manually resettable thermal overload limiter.
- Rotary switch with 3 positions to control product switch-on and switch-off and to select the desired power level (1,000 W / 2,000 W).
- Room thermostat with antifreeze function, guaranteeing automatic activation of the fan heater whenever ambient temperature drops below 5°C.
- Approx. 2 m power cord complete with Shuko plug.
- Safety certified by third party body (CE).
- Protection rating from dust and water: IPX3 (suitable for installation in bathroom Zone 3).
- Class of electric isolation: II (earthing not required).
